

My geeky friend, who's super into his country, spends all day glued to **YouTube**. Somewhere, he's hidden some **private keys** and these keys contain important notes and more keys, but only he knows where they are or what they mean. On top of that, there's also a secret message hidden somewhere, but no one has any idea where it could be.

- YouTube obsession might suggest that the user's YouTube habits will lead to useful clues (e.g., names, passwords).
- Private keys refer to files hidden in the process (possibly through steg tools or encryption).
- Tinging is a major clue for unlocking a password, particularly related to the YouTuber.

## Tingting ASMR

@TingtingASMR · 2.53M subscribers · 834 videos

Hello, my name is Tingting, welcome to my ASMR channel! I will be creating videos to help you sleep...more

Thank you, channel members!

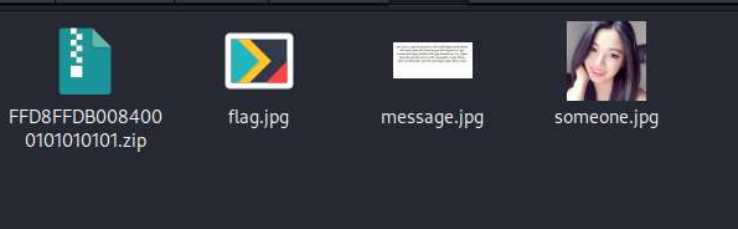

### For You

```
(kali㉿kali)-[~/Desktop/CTFBAT/Tingly Files/audio]
$ sudo unzip FFD8FFDB0084000101010101.zip
[sudo] password for kali:
Archive: FFD8FFDB0084000101010101.zip
[FFD8FFDB0084000101010101.zip] message.jpg password:
  inflating: message.jpg
  inflating: flag.jpg
```

Password is tingting

The we get two file one is **message.jpg** another one is **flag.jpg**

```
(kali㉿kali)-[~/Desktop/CTFBAT/Tingly Files/audio]
$ hexdump -c flag.jpg | head

解码

交换格式

```
(kali@kali)-[~/Desktop/CTFBAT/Tingly Files/audio]
$ echo $((2#1110110100100010111100101))
31081957
```

```
(kali@kali)-[~/Desktop/CTFBAT/Tingly Files/audio]
$ sudo steghide extract -sf message.jpg -p "independence"
the file "kunci.zip" does already exist. overwrite ? (y/n) y
wrote extracted data to "kunci.zip".

(kali@kali)-[~/Desktop/CTFBAT/Tingly Files/audio]
$ unzip kunci.zip
Archive: kunci.zip
  inflating: key.txt
```

### Search for a tool

★ SEARCH A TOOL ON dCode BY KEYWORDS:  
e.g. type 'boolean'

★ BROWSE THE FULL dCODE TOOLS' LIST

### Results

dCode tried to find the correct alphabet and its substitution automatically. The result is a draft that should allow you to perform the decryption manually by indicating letters in each cell.

TO BEGIN A GAVE OF TINGTING, THE FIRST PLAYER MUST THROW THE GUNDU INTO THE FIRST SQUARE WHILE FACING IT. EACH SUBSEQUENT PLAYER FOLLOWS THE SAVE PROCEDURE. IF A PLAYER FAILS TO LAND THE GUNDU IN THE DESIGNATED SQUARE, THEIR TURN IS FORFEITED, AND THE NEXT PLAYER TAMES THEIR TURN.

## MONO-ALPHABETIC SUBSTITUTION
